Announcing Two New Products To Help You Upgrade And Trade In Your Older Radio Units

Invest In A New Motorola P165 Or The Smaller Vertex VX-354 And Save £30.00 Using Our Trade-In Deal

Motorola's new P165 multi channel portable radio is the latest in a line of quality products from the UK's leading two-way radio manufacturer. The front mount LCD display allows you to identify your channels using channel names, making this radio extremely easy to use and user friendly.

Built to Motorola's high standard, this rugged, robust, fully featured radio is an ideal product to replace any of your older two-way radios. Therefore, we are offering a £30.00 trade-in deal when you upgrade any of your old radios (even those that do not work). In addition, we will also give you a single unit fast charger with each radio, *Free of Charge*.

The New
Motorola
P165

The New
Vertex VX-354

The new Vertex VX-354 multi channel handportable radio is also a highly recommended product with a front mount LCD display. Built to the same high standard as the best selling Motorola radios, the Vertex units offer a low cost alternative to the more popular Motorola brand of radios.

Again, the front mount LCD display makes this radio extremely easy to use and user friendly. So, make use of our £30.00 trade-in deal with any of your older radios (even those that are not working) and we will also give you a single unit fast charger with each new radio, *Free of Charge*.
