Motorola DP2000 Series Digital Portable Radio Offer!**

LIMITED PERIOD ONLY - UNBEATABLE VALUE DISCOUNT OFFER
WHEN YOU PROVIDE PAYMENT WITH ORDER

MOTOROLA DP2000 DIGITAL

The DP2000 Series Radio offers plenty of features to make workers more efficient. The voice announcement feature provides audible confirmation so radio users can be notified of channel and zone changes as well as programmable button features, without having to look at the radio.

The radio is intuitive to use so that workers can stay focused on the job at hand, from the hotel receptionist confirming rooms to security covering a sporting event.

Your workforce is hard at work every day, unloading stock, checking inventory and checking on guests. That's why you'll appreciate the easy flexibility and scalability of the DP2000 Series to fit your changing needs and coverage area.

Offer 1

Buy 1-10 DP2400 at Motorola's RRP of £338 and receive 25% discount against each radio purchased.

Offer 2

Buy 11-20 DP2400 at Motorola's RRP of £338 and receive 30% discount against each radio purchased.

Offer 3

Buy 21+ DP2400 at Motorola's RRP of £338 and receive 35% discount against each radio purchased.

Can we integrate new digital radios in a phased approach?

We know that keeping your operations running smoothly while you upgrade your analogue radio system to digital, is vital to any business plan. Motorola have, therefore, made it easy to migrate to digital with the DP3441 series of radios as they are designed to operate in both analogue and digital modes.

All Prices Given Exclude VAT - Offers Valid Until 31st March 2017
